

I am a zealous and loyal listener of Air One radio. I know personally many people whose lives have been affected in a positive way by this radio station. I don't want my radio station taken away from me because of LPFM Broadcasters that provide other programing. I have been out of the Air one listening area for a few months now and I can tell you, I really miss it. This station is such an integral part of my life....I have had to find it on the internet to listen until I return. PLEASE PLEASE PLEASE DONT TAKE MY AIR ONE AWAY! I know that many people in the community would be negitively affected if Air 1 could not broadcast.
